### 2.5L MULTIPOINT MANIFOLD INJECTION PETROL ENGINE

#### ULTRA-LOW NVH

Improvements in Noise, Vibration and Harshness translate into a noticeably smoother and more refined on-road driving experience.

#### VEHICLE DYNAMIC CONTROL (VDC)\*

Seven Sensors in the Navara monitor driver inputs and vehicle motion, gently aiding the vehicle's ability to stay on the driver's intended path. Vehicle Dynamic Control helps control and limit both understeer and oversteer, maintains optimum traction and even applies brake pressure to reduce wheel slip on loose road surfaces.

#### ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD) WITH BRAKING ASSIST (BA)

Reduce stopping distances in emergencies by up to 15% with Braking Assist. The Navara detects panic braking and automatically increases pedal pressure for confident, controlled braking to avoid collisions at high speed.

#### TRAILER STABILITY ASSIST (TSA)\*

New to the Nissan Range and standard across all models, TSA inspires towing confidence by detecting any instability, sway or "fishtailing" in the trailer while driving and quickly brings the trailer back into a safe axis.

### HILL DESCENT CONTROL (HDC)\*

Hill Descent Control makes going down steep gradients manageable by automatically adjusting your speed and brake pressure to help keep you safely in control, at a constant speed.

### HILL START ASSIST (HSA)\*

It's never an uphill battle with Hill Start Assist to prevent from rolling backwards on steep inclines.

### BRAKE LIMITED SLIP DIFFERENTIAL (B-LSD)\*
